Summary

Socially adept software engineering student with a passion for people and team-building. I love the thought of my career being focused around making something new and exciting. While being rooted in self-accountability and creativity, I hope that we can come together as a team to make something beautiful.

Education

V School | Full-stack Web Development Certification | July 2020 - Present

Skills

Hard Skills | JavaScript, ES6, React, HTML, CSS, Node.js, AJAX/HTTP, Mongoose, MongoDB, JSON, Git

Soft Skills | adaptability, coachability, communication, collaboration and teamwork, high emotional intelligence, self-accountability, people skills and management, problem solving and creativity.

Projects

Axios To-do List | <https://bduffytodo.netlify.app/> | **Built with HTML, CSS, JavaScript, and Axios.**

- Created a fully functional and interactable to-do list
- Utilizing Axios (CRUD), interfaced with a third party API to display real-time data through a series of vanilla JavaScript functions
- Ensured UI/UX was clean, crisp, and easy to follow

Meme Generator | <https://bduffymeme.netlify.app/> | **Built with ReactJS, CSS, and Axios.**

- Generated a React application that takes a user's input and applies it to a random image, creating their very own meme, and adding it to an unordered list that is then rendered to the page
- Random images generated from a third-party API using Axios protocols

Work Experience

Barista | Dutch Bros. Coffee | Feb 2021 - Sept 2021

- Handled upwards of 115 customer interactions daily, focusing on engagement and customer satisfaction
- Trained peers on best practices regarding the functions of the company's transaction application, leading to an overall smoother and steadier workflow
- Maintained outstanding customer relationships through personability, speed, quality, and service

Demolition Laborer | Talisman Construction Services | Jul 2020 - Dec 2020

- Achieved a 93% expected delivery rate by collaborating and coordinating with up to 4 contracting companies at a given time to deliver expedient and concise results on various demolition projects • Maintained 100% project completion rate over the course of 4 months after training on, and operating, heavy machinery in a fast-paced environment
- Successfully delegated tasks to peers after attending daily meetings with company leadership
